## INVITATION

We cordially invite you for a One-day State Level PROGRAMME Workshop on "Intellectual Property Rights and Patents" on 30 Aug. 2019. The Intellectual Property (IP) is a category of property that comprises intangible creations of the human intellect. Intellectual property encompasses two types of rights - (a) Industrial Property Rights [Trademark, Patents, designations of origin, industrial designs and models] and (b) Copyright. It was not till the Nineteenth century that the term, "Intellectual Property" began and in the recent time, it has become the commonplace in the majority of the world.

The main aim of Intellectual Property Law is to encourage the creation of a large variety of goods. To obtain this, the law gives people and businesses property rights to the information and intellectual goods.
